

BONALDO

Arbor console

Arbor Console is a complement that joins together influences both from the East and the West. The frame, in painted metal, is a stylised corolla made up of petal silhouettes supporting the ceramic tops. Able to be matched with the homonymous collection of coffee tables, Arbor Console is a precious sculptural furnishing object, thanks to the delicate design and refined finish that distinguish it. The double top makes it elegantly

functional. The base, result of formal and figurative research that seeks new expressiveness and essential appeal, has a highly decorative value that allows Arbor Console to embellish any wall, with lightness and personality. A furnishing element designed by Dondoli and Pocci, for the living space that follows a timeless style.
