

BONALDO

Greeny

Designer: Gino Carollo

Marked by harmonious elegance, this fixed table combines a solid wooden base, available in three different finishes (American walnut and natural or coal ash), with an oval or round top made with different finishes in marble, glass or ceramic. The elegance of the top's line, displayed in its thinness, perfectly combines with the material value and the excellence of the

cabinet work on the base: the result is a table that, even in its simplicity, expresses personality and visual lightness, displaying the most classic taste without, at the same time, renouncing a more contemporary aesthetic. Greeny therefore lends itself to combination with furniture of various styles: an article of furniture that can embellish any context.
