

Dish Doctor — design Marc Newson, 1998

Even a domestic activity such as washing the dishes can be approached with an original, colourful, playful spirit, thanks to Dish Doctor: a draining rack created by combining two rounded polypropylene shells. Its shape is reminiscent of a ship, with two cutlery holders for funnels. Inside, a forest of round-tipped spikes keep the tableware in order after rinsing. Dish Doctor offers an outstanding production quality, worlds away from your common or garden polypropylene

draining rack, and Marc Newson took care of every detail of its distinctive design, including the packaging.

Marc Newson

Marc Newson has been described as the most influential designer of his generation. He has worked across a wide range of disciplines, creating everything from furniture and household objects to bicycles and cars, private and commercial aircraft, yachts, various architectural commissions, and signature sculptural pieces for clients across the globe.

His clients include a broad range of the best known and most prestigious brands in the world – from manufacturing and technology to transportation, fashion and the luxury goods sector. Many of his designs have been a runaway success for his clients, and have

achieved the status of modern design icons.

Marc Newson was included in Time magazine's 100 Most Influential People in the World, and has received numerous awards and distinctions.
